

Country report for Montenegro/Statistical office of Montenegro

Introduction

We started using PX software last year. We released PX Web site on 3 september 2018. The site is available on English and Montenegrin. We prepared 271 tables for now. In preparing PX WEB we used excel tables from our site. We adjusted this tables and convert it to px files

Information and experiences

- We use PX-Web 2017.
- We don t use API.

What are your future plans (related to the programs)?

- Update to new version
